

VIDYA YADAV R

Enthusiastic full stack developer student with a passion for web development. Seeking an internship where I can learn from experienced developers and contribute to the development of high-quality web applications. I am a quick learner and I am eager to take on new challenges. I am confident that I would be a valuable asset to your team.

PROJECTS

PERSONAL PORTFOLIO

Developed and designed a personal portfolio website to showcase my skills, projects, and accomplishments in a visually appealing and user-friendly manner

<https://vidya-yadav-r.github.io/my-portfolio/>

WALKING ROBOT

It is a graphical visualization of a walking robot designed using the C++ programming language. The OpenGL software was used. It follows the movements of the pointer key.

WOMEN'S SAFETY APPLICATION

Created an Android application that can instantly alert guardians along with user location. Furthermore , It can be triggered by agitating the Android device in which the app is installed. The application was created using Java and Android Studio software.

E-COMMERCE SYSTEM

A basic database management system was created using the SQL programming language in the Oracle software. A responsive website was also created where the user was able to add items to their cart and even add them to their wishlist.

EXTRACURRICULAR ACTIVITIES

- Attended workshop on "Deep Dive into ChatGPT" by Nihal Kashinath
